MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1) Industry Structure & Developments and Outlook

The Gems and Jewellery sector in India plays a significant role in the Indian economy, contributing around 6-7 per cent of the country's GDP. The sector has gained global popularity because of its talented craftsmen, its superior practices in cutting and polishing fine diamonds and precious stones, and its cost-efficiencies. One of the fastest growing sectors, it is extremely export oriented and labour intensive. India is also the world's largest diamond-cutting and polishing centre and the industry is considered to play a vital role in the Indian economy as it contributes a major chunk to the total foreign reserves of the country. The government of India has declared the sector as a focus area for export promotion based on its potential for growth and value addition. The government has recently undertaken various measures to promote investments and to upgrade technology and skills to promote 'Brand India' in the international market.

The country exports 95% of the world's diamonds, as per statistics from the Gems and Jewellery Export Promotion Council. In FY2015-16, the Indian gems and jewellery industry contributed USD 38.59 bn to the country's foreign exchange earnings.

The overall exports of gems and jewellery from India declined by 3.48% in FY2015-16 compared to the previous year, owing to a slowdown in the global economy. The decline was primarily driven by a sharp fall in exports of cut and polished diamonds (CPD) by 13.69% from US 23.16 bn in FY2014-15 to USD 19.99 bn in FY2015-16. In rupee terms, however, the slump was 13.7 per cent to Rs 1.31 lakh crore, from Rs 1.41 lakh crore the previous year. The UAE was the top export market, accounting for 32% of the exports, followed by Hong Kong and the US, accounting for 28% and 22%, respectively.

The lower costs of importing roughs through the SNZ (special notified zone) establishment in India is anticipated to benefit the Indian G & J industry hugely in the coming years and will result in an upward growth curve, very soon.

Recent regulatory scenario

The major regulatory changes announced in the Union Budget 2016-17 include: Sector-wise growth in Gross Value Added (GVA)

Excise Duty	Imposition of 1% excise duty without input tax credit or 12 with input tax credit on articles of jewellery (which exclusiver jewellery, other than studded with diamonds and so other precious stones)	
Goods and Service (GST)	At last Government has successfully pushed a historic Indirect Tax Tax reform legislation by getting Parliament approval on Goods and Services tax (GST), this will integrate several Indirect taxes being levied by Central Government & State Government to one	

	common tax throughout the country and will help ease of doing business. As per recent development GST is expected to roll out from April 01, 2017
Government Initiative	The initiatives like Make in India and Digital India taken by the Government would boost demand and hence spur development.

Neogem India Limited is engaged in manufacturing and export of diamond studded jewellery. It has a well-equipped manufacturing facility with technically advanced machines to carry out production efficiently. Our skilled workforce is trained to deliver high quality products of international standards. We commit ourselves to offer the best and look forward to developing long-term business relationships.

Management's Responsibility for Internal Financial Controls The Company's management is responsible for establishing and maintaining internal financial controls. Auditors' ResponsibilityOur responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. We believe that the audit evidence I/we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial

reporting includes those policies and procedures that;

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OpinionIn our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31-Mar-2016.

The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is recognised in the same manner as gratuity. The company has provided for gratuity (Rs. 1,16,584) in the books however no payment has been made against the same till the date of signing of the Balance sheet, hence the particulars as provided by the trust are not available."
